The Child Death Overview Panel was created in April 2008 to ensure that a review of each child death is undertaken, to better understand how and why children in the county die and use the findings to take action to prevent other deaths and improve the health, safety and wellbeing of our children.

The eighth Annual Report, which reflects the panels activity from 01 April 2015 to 31 March 2016, has been finalised and can be found on both Staffordshire and Stoke-on-Trent Safeguarding Children Board websites: safeguardingchildren.stoke.gov.uk staffsscb.org.uk

The report contains information on local child deaths and summaries the work of CDOP throughout 2015/16.
Raising awareness with parents and carers

The panel has worked closely with Trading Standards, RoSPA, The Lullaby Trust, CAPT etc. over the years to create innovative and hard hitting campaigns such as Safer Sleeping, blind cord awareness, nappy sack danger, ‘Protect your little bundle’ booklet. All material can be requested from the Child Death Co-ordinator.

Protect your little bundle...

from birth and beyond.
